Fondaway Canyon Gold Project

- In addition to an initial sizable historic resource, the Company discovered three zones of gold mineralization in 2020.
- In 2021, the Company continued to expand and reveal the continuity of the mineralization with some of the best cumulative gold drill intercepts in the 40+ year history of the Project.
- The Company plans for a more aggressive 2022 with two drill rigs scheduled to rapidly advance the Fondaway Canyon project.

*The tonnage and grade estimates stated herein are 'historic' as defined by NI43-101. Getchell's qualified person has not done sufficient work to classify the historical estimates as current mineral resources and Getchell is not treating these historical mineral estimates as a current estimate for mineral resources. Additional work will need to be undertaken to verify the historic estimates and classify them as current resources.
